INTI International College Subang

Diploma in Computer Science

Jan 2021 - May 2023

LANGUAGES

English | Advanced
Chinese | Proficient
Malay | Native

PROFILE

Computer Science student graduating in November 2026, with web development experience at Bitechain Technology. Builds responsive React and Next.js interfaces and frontend x402 payment flows. Interested in product teams building dashboards, ticketing and payment features.

EXPERIENCE

Full-Stack Developer (Degree Intern)

Bitechain Technology | Remote, Malaysia

Jul 2026 - Present

- Build and refine React, Next.js and Tailwind CSS interfaces for mobile and desktop.
- Implement frontend x402 payment flows, connecting Web3 payment requests with user-facing payment interfaces.

Diploma Intern and Part-time Developer

Bitechain Technology | Malaysia

Jan 2022 - Mar 2023 | Part-time Mar - Oct 2022

- Built and launched the corporate website using WordPress.
- Wrote and deployed foundational Solidity smart contracts and continued contributing to Web3 initiatives after the internship.

SELECTED PROJECTS

Higgspay

React / Vite / Vercel

- Developed website experiences and worked on x402 payment flows for a platform supporting crypto and AI agent payments.
